COMPUTERIZED CONTROL

This dreary scene will remain unidentified to protect cottage owners property values but it vividly portrays the utter desolation faced by thousands of Haliburton County waterfront property owners during almost the entire summer this past vacation season as water levels plummeted to feed the

Trent Canal System. Despite 'computerized control' of lake levels, owners now face isolated cottages and boats, damaged boats and motors and dry wells as water continues to be drawn off with little regard for the lakes and people of Haliburton County.

Res.
457-1110

"The Haliburton Highlands Chamber of Commerce"

Concerned citizens got together at the Haliburton Legion on Sunday at the invitation of Dysart Council to meet with officials of the Trent-Severn authority. Water levels this year have reached such unprecedented lows that very serious hardships are being experienced by a large number of people. This meeting gave many of them an opportunity to voice their objections and explain their predicaments. The meeting also resulted in the formation of a committee that will continue to follow up on suggestions that were, and will be made to the authority. The Chamber is pleased to be represented on this committee. All Municipal councils and major lakes from within the affected area are represented.

The authority provided a number of pages of information to help explain why we are experiencing this present difficulty. The figures point up the fact that only 1968 and 1931 were worse than this year for low water at this time of the year. The reasons given were that the reservoir lakes were not filled to capacity from spring run-off to begin with, and the unusually dry May and July.

There are of course a great many complex and technological factors involved in the operation of the system and the public cannot be expected to comprehend it all. There are however, some things that appear to be obvious enough that it doesn't require an engineer to equate them. The rainfall in August was 159 per cent of normal, or more than 1 1/2 times what we get in any given year. In spite of this the levels continued to drop, where it might be expected that you could either regain, or at least hold the levels during that time.

We were also informed that the stop-logs in the control dams are adjusted every Tuesday. It would appear obvious that a heavy rainfall on Wednesday is going to be all drained out of the reservoir lakes by the time the logs are adjusted next Tuesday.

Residents on Lake Kashagawigamog are now being advised that they intend to drop the level of this lake another two feet in the late winter. There is no indication that any research was done into the effect on wells, water lines and ice conditions for snowmobiling and skiing, and if these are not important enough how about the effect on fish and wildlife.

The presentation by the authority had a document that explained the facts and advantages of the Trent-Severn waterway. Among other things they estimate that the waterway generates 50 million dollars annually in spending in the surrounding area - but if it is done at the expense of our area then it may be time a new agreement was drawn up! The province turned over the control of these reservoir lakes to the Federal government when the waterway was established in 1906. Now, while the Federal government plays with our water levels, our Provincial government attempts to force us to rent 'water lots' for our docks and rafts, even though they have no control over the level of the water in these 'lots'. Cottagers and residents take note - that the honourable Frank Miller has stated you are next! Commercial operators are now being forced to rent 'water lots', and once that is done, all of the private sector will be forced to follow suit. The Chamber has been objecting to this practice, and it's about time the cottager's associations get involved too.

Don't forget your tickets for the Annual Dinner meeting October 12th. If you wait till the last minute you could be disappointed, and we don't want that to happen to anyone.

Sidewalk Session

photo by cliff burke

Mr. A. Wild, of R.V. Anderson Associates Ltd., last week met with Minden Council to discuss whether to patch or replace the sidewalk from McKay Ave. to

the Sunnybrook Bridge. Council decided that the sidewalks would look better if they were replaced and opted for a 5-inch sidewalk of concrete at a cost of approximately \$3700.00.

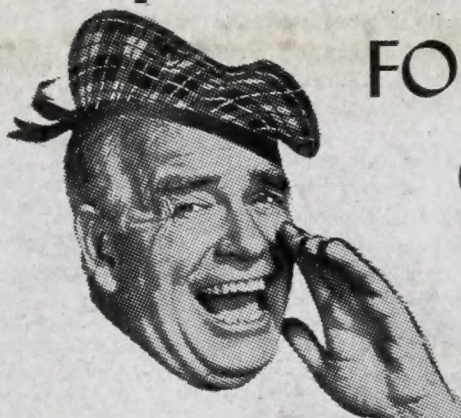

Left to right above: Earl Kent, Road Superintendent, councillors Len Lansbury and

Lyle McKnight, Mr. Wild, Reeve Reg Booth, Deputy-Reeve Doug Pritchard and Clerk - Administrator Richard Parisotto.

Scenes like these have become commonplace across Haliburton County as lake levels plummet to feed the Trent-Severn Waterway.

photos by foote

Restrained but angry, meeting forms water levels committee

Haliburton County cottagers, year-round residents and businessmen turned out 100-strong last Sunday and in a show remarkable for its poise and restraint strongly voiced their protest of recent lakes-destroying water levels, then formed a special committee to carry their torch to the highest levels of government.

The occasion was a special meeting called by Dysart Reeve Murray Fearrey following a summer-long deluge of complaints over horrific low lake levels. Terming the situation 'a grave concern' chairman Murray Fearrey said that while the problem was not new it is 'now no longer acceptable.'

With the levels of Haliburton lakes at their lowest in years, complaints ranged from dry wells for the first time in twenty years to cottages separated from the water by 30 to 50 feet of slime and mud. Certainly, the admission by Trent Canal representatives that their prime concern was to maintain the chart depths of the Trent navigable waters and a 600 cubic foot per second flow down the Otonabee River was not lost on the packed Canadian Legion hall in Haliburton.

In some cases across the county marinas are virtually out of business and inaccessible by boat, in other instances local navigable waterways aren't anymore because of low water, with consequent boat and motor damage.

Add to these complaints the problems of erosion, the loss of fish spawning beds plus the effect of all this on the sale of lots and the seriousness of the situation becomes readily apparent.

For those who use their properties year-round the hazard of low water can and has meant dry wells or lake pressure systems. When this happens the affected properties can no longer be used.

For Donald Kevin of Horse-shoe Lake the low water has meant serious problems for the black ducks he is trying to raise. Confined to a pen set quite safely, he thought,

some 25 feet below the lowest water levels he can recall in 45 years on the lake, the pen and the ducks are now on dry land. And for Howard Chandler of Drag Lake whose cottage is accessible by water only, it's now just a matter of days before he will be unable to reach it at all.

According to Bruce Kitchen of the Trent Waterway various ways have been tried to draw off the Haliburton waters for the Trent but they believe the method of drawing from all in equal percentage to be the best and most equitable.

'They adjust the stoplogs each and every Tuesday,' said Haliburton Highlands Chamber of Commerce Secretary-Manager Bob Stinson, 'but that doesn't do much towards retaining the previous Wednesday's deluge of rain.'

To Reeve Sinc Nesbitt of

Stanhope Township the figures published by the Trent system are often 'misleading.'

He went on to say that although the volume of water reported for the Hawk Lakes last Spring was 89 percent of normal the amount was 'not anywhere near that.'

'The people who feed the computer should come out here and see for themselves first', he suggested.

'We've had lip service for 15 years on water levels', commented Mr. Fearrey. 'In my 8 years in politics it has been a problem each and every year.'

Named to the special committee were reeves Murray Fearrey, Reg Booth and Sinc Nesbitt, plus Don Fisher, Bert Shingler, Bev Robinson, Bob Stinson, Phil Remington, Murray Bulkwill, Morris Park, Don Larmouth, Don Hall, Jerry Strickland and Andy Tulk.

Nab Haliburton man on drug, gun charges

The daylight arrest of 25 year-old Paul Wayne Howe of Haliburton by O.P.P. officers on Minden's Main street last week climaxed a bizarre, 15-hour on again, off again, shotgun wielding chase that began as a simple traffic offence and ended with serious drug trafficking and dangerous weapon charges.

Police have seized two large bags containing what is believed to be more than a pound of marijuana worth 'hundreds and hundreds of dollars' on the street.

They say the pot was found in a knapsack in Howe's car after police tried to stop Howe for driving erratically in the Beaconbrook Hotel parking lot early last Thursday morning.

Halted eventually on Pine Street in Haliburton, Howe, say police, tried repeatedly and eventually actually did flee on foot, leaving his car behind.

When confronted by police at his home a short time later, How met P.C.'s Jim Martin and Bob Pearson at the door with a double barrelled, 12-gauge shotgun but quickly demonstrated it was unloaded.

Although police had had Howe's car towed to Curry Motors for storage, it was found the following morning that the garage had been broken into, the vehicle gone.

Unable at first to find Howe, police officers nabbed him as he stepped out of a Minden restaurant to get in his car.

A search of the car disclosed the cache of marijuana.

Held in jail in Lindsay, Howe faces seven charges, including assault of a police officer, obstructing a police officer, unlawfully escaping custody, possession of a weapon dangerous to the public peace, break, enter and theft, driving a motor

A packed Haliburton Legion auditorium saw angry and frustrated waterfront property owners and business

people on hand to protest the crippling drop in lake levels. Meeting formed special act-

ion committee to carry on fight for water. See accompanying story.

Stolen cocaine could kill

Pure cocaine stolen from Cauldron Pharmacy during a breakin last Saturday will prove fatal if used in its present form.

This was the warning issued by police following discovery of the early morning breakin.

Thieves, who entered through a side door, caused

some \$20 damage, then made off with \$90 in cash plus drugs valued at close to \$150.

Drugs stolen in addition to the cocaine included prescription drugs which could also prove harmful if taken in excessive quantities. Investigation by Provincial Constable Mike Maher.

Caution light slated

In the regular meeting of Anson Hindon & Minden last week, Council passed a motion to look into the cost of erecting a pole and caution light at the corner of Main and Newcastle Streets.

This has been a treacherous corner for many years and scene of many minor accidents. Councilors argued that the installation of a caution light would greatly reduce these minor mishaps.

To pave 10 Minden streets in '78

At the August meeting of Minden council Councilor Al Coneybeare presented a brief to council in which he asked that a number of Minden Village roads be paved. Last week the regular meeting of council granted Councilor Coneybeare's request. A report by Clerk-Administrator Richard Parisotto, which outlined the cost of paving 10 streets in the town, was accepted in its entirety by

vehicle with liquor readily available and possession of marijuana for the purpose of trafficking.

Investigation by Provincial Constable Jim Martin.

Council.

Council passed a motion to have the work commence in the Spring with the costs of the entire project for the following roads estimated at \$35,279.00.

Included are: Prentice St. from Bobcaygeon Rd. to the Community Centre - .30 miles, \$6,679. North Water St., from Lauridic Cabins to end, .50 mile, \$10,000.

Parkside Crescent, from Bobcaygeon Rd. to the Community Centre, .25 mile, \$5,000.

Stouffer St., from North Water St. to Candace St. - .20 mile, \$4,000.

Advertising...

The economy ...where now?

The "Kismet" Philosophy

SECOND OF THREE PARTS

Most measures undertaken by government to offset these problems have proven ineffective and futile. The A.I.B., for example, while certainly curtailing flamboyant wage and salary increases, has been of little use in holding down prices. On the other hand government programs to aid businesses and stimulate employment through re-training and special projects are often competitive, complicated beyond belief by red tape and are relatively short-term in their effect.

It is the interplay of all these factors plus the defensive reactions of Canadians as they become more and more concerned with simply protecting their own status quo that contributes to the ever-increasing downward slide of our economy and our confidence in it.

Reaction to all this at the federal government levels seems to reflect the Islamic 'Kismet' or fate. A what-will-be, will-be philosophy is simply a testimony to inaction and this seems to be Ottawa's 'let it run its' course' attitude.

Increasingly, Canadians are asking themselves if, in fact, Ottawa is right or is there an alternative.

Can we, in fact, hold down inflation yet increase employment, business growth and our G. N. P. for a healthy dollar and a positive balance of trade.

For many the alternative seems obvious and it involves, first of all the renunciation by federal and provincial governments, both, of their perferential attitude towards big business and their philosophy of 'big is better.'

Next week: Try it, you'll like it!

Report from Queen's Park

John Eakins, M.P.P.

Students are back in school: most of them have even straightened out their time-table problems. This would seem to be an appropriate time to reassess Ontario's educational system, particularly in the light of two new developments: the introduction of mandatory core curriculum studies, with new teaching guidelines; and the establishment of a government commission to study the effect of declining enrolment.

In the late 1960s, the philosophy of freedom of choice with respect to courses was introduced into the school system, under the aegis of the then Minister of Education, Bill Davis. The Government Interface Study of November 1976 confirmed criticisms of the general public that high school students were graduating from school ill-prepared for higher education or participation in the work force.

Last October 6th, we released a comprehensive policy paper, suggesting 'New Directions for Education', much of which has been adopted by the Provincial Minister of Education. Mandatory courses have been established for Grades 9 and 10, and over two years students must take 2 English courses, 2 Maths, 2 Canadian History and/or Geography, and 1 Science. Current senior students (Grade 11, 12 and 13) are required to take 2 English courses. While introduction of core curriculum at the intermediate level appears difficult, in fact most students have chosen these same courses in the past. The new 'refinements' are intended to guarantee that all students receive a sound basic education.

However, there are several problems which hopefully will be resolved in the near future. Core curriculum applies only to students entering Grade 9, and there is no assurance that students in higher grades (or entering Grade 10) from another school will receive instruction in these essential subjects. Also teacher guidelines which correspond to core curriculum have come under heavy criticism for being inappropriate, poorly focussed, lacking fundamentals and vaguely outlined. This is especially true with respect to History, called 'Canadian Studies', and Maths. Senator Eugene Forsey has described the Intermediate History Guidelines as 'a mass of fluff'. The Maths guidelines are not mandatory and will not be until the fall of 1979.

Canadian Geography is still not a required subject. Last October, the Minister of Education made the point that

'curriculum guidelines will be revised to ensure that every student knows enough about our History and our Geography...' Yet a later directive from his Ministry makes it clear that students could take either one History and one Geography, or two History courses, thereby avoiding Geography.

Although these new initiatives do give students and teachers some direction, they will not produce instant results. Parents would be well advised to keep a watchful eye on their children's progress, and the extent to which the new developments have affected program mes of study.

The Provincial Commission to study Declining Enrolment was proposed by the Minister of Education during the June Provincial Election as a way of resolving complex problems resulting from a surplus of available teachers and reduced school financing. Two months after the Election the Minister announced establishment of a Commission, headed by Robert Jackson, to study the ramifications of declining enrolment and submit a report on its findings within one year.

Mr. Jackson, a former Director of the Ontario Institute for Studies in Education (OISE), has considerable experience in studying the effects of declining enrolment. However, he is somewhat handicapped by being forced to work with no fewer than four enrolment predictions for Ontario, all of which differ. All four project a continuing decline for the immediate future, but some envisage an increase in the mid-1980s, while in other instances a levelling-off or continuing decline is predicted for this period. Mr. Jackson has, however, described the future enrolment situation as looking 'pretty grim'.

Public input would prove a valuable asset to the Commission in its investigations. Local groups and parents need to consider how communities can best cope with education costs in relation to the changing character of educational institutions, i.e. school facilities will continue to be costly, but with proper planning can absorb local gymnasium/auditorium needs, day care requirements, continuing education and hobby instruction.

Special education needs must be met - possibly by retraining surplus teachers. It is also essential that the community ensure that the quality of education does not deteriorate as a result of government financial restraints. Hopefully, the Commission's report will prove to be of great assistance in planning for future educational requirements.

Report from Parliament

by

William Scott M.P.

Statistics Canada reported last week that unemployment in Canada has reached the alarming rate of 8.2 per cent of the work force. This prompted Conservative Leader Joe Clark to demand that the government accept the proposals put forth by our party to stimulate the national economy and get people back to work.

Several months ago, Finance Minister Donald MacDonald said that the Canadian economy would improve just as soon as there was an upsurge in the U.S. economy. Since then the U.S. economy has shown a marked improvement, while the Canadian economy continues in its downward spiral. The unemployment rate in the U.S. is consistently lower than in Canada, in the 6.9 to 7.0 per cent bracket, while our own unemployment rate in Canada over the past few months has risen steadily, from a low of 7.5 per cent to the present 8.2 per cent.

It is obvious that the government has been waiting for the U.S. to influence our economy, and our jobless rate, but as I mentioned in this column more than a year ago, we have got to solve our own economic problems and not leave it to someone outside the country.

We in the Conservative Opposition have pointed out over and over again that the true unemployment rate in Canada is nearer to 11 or 12 per cent than the figures published by Statistics Canada.

Those thousands of people who have given up trying to find jobs in the Manpower offices, and have stopped registering in those offices, are not counted in the StatCan figures. Only those people who register are included in the jobless rate calculation.

When people run out of unemployment insurance benefits, they are dropped from the UIC active rolls, and they then

become members of that growing army of 'hidden' unemployed. They are jobless, but they do not show up in the statistics. This is a national disgrace.

Statistics Canada reports that 45 per cent of unemployed men over the age of 24, classed by StatCan as 'family breadwinners,' have been looking for work for more than three months. It also notes that the unemployment rate among women is two per cent higher than among men. This is doubly tragic in that many working mothers are the sole support of their families.

Joe Clark is urging the federal government to end the Anti-Inflation program, and to implement the Progressive Conservative Policy on Unemployment. The Anti-Inflation program has run its course, and it was a poorly designed and badly-administered program to begin with.

We would eliminate the federal sales tax on critical items, such as building and insulating materials, and provide income tax cuts to lower and middle income families with greatest benefits to those earning up to \$8,000 a year, and on a sliding scale up to earnings of \$15,000 per year. We would immediately restrain the growth of the federal public service and streamline services to provide greater efficiency at reduced cost to the taxpayers. The Canadian government's demands on the productive element of our economy are ten to fifteen per cent higher than for the U.S. government.

In the three months ending in June, Canada had a deficit in foreign payments of 1.5 billion dollars, and a tourism deficit of 489 million dollars. With such a multitude of unsolved economic problems, with new ones surfacing every day, I'm convinced that we need something more than a change in government attitudes and programs.

comment

No help from Queens Park in converting local roads to metric

The municipality of Minden will have to go it alone when it comes to converting its road and street signs to metric.

That was the word from Harold Gilbert, Deputy Minister of the Ministry of Transportation and Communications who told council in a letter last week that

any and all provincial subsidy was prohibited for metric conversion purposes. Conversion costs for the municipality will total about \$300 but any Queen's Park assistance is precluded by provisions of the Public Transportation and Highway Improvement act, the letter explained.

Find 4 businesses unlocked in early morning checks

Three Haliburton Village businesses and one in Minden were found open and unlocked by police conducting early morning checks last Friday and Monday.

Police said they checked over 200 Minden, Haliburton, Carnarvon and West Guilford business premises dur-

ing the two-night campaign. In Minden they found Kawartha Dairy open. In Haliburton checks found Boice Motors, Dawson Insurance and David Bishop's offices all with open doors. Police say they found everything secure in both West Guilford and Carnarvon.

5 hurt in 3 crashes

Damages totalled some \$6,000 while five persons suffered minor injuries in three separate collisions last week. Two drivers were charged by police. Facing a charge of improper left turn and failing to wear a seatbelt is 49 year-old Orman Rowbotham of Haliburton. The Rowbotham car collided with a motorcycle driven by Lavern Hobden, 16, of Hal-

iburton last Thursday afternoon at the traffic lights in Haliburton. Hobden has been charged with not having a motorcycle endorsement on his license. Injured in the accident were Hobden and two Haliburton passengers in the Rowbotham car: Robert Vickery, 30, who walked to hospital from the accident scene with a cut arm, and Emmett Madill, 43. Damage totalled \$1,100. SEE CRASHES P. 6

LETTERS

Sept. 16, 1977.

The Editor,
MINDEN PROGRESS,
Minden, Ont.

Dear Sir:

The Horseshoe Lake Property Owner's Association has become alarmed that a proposal has been made by the White Water Affiliation to the Township of Anson, Minden and, and to other agencies, to develop the rapids area below the dam at Horseshoe Lake for national and international canoeing championships, and to create a permanent Provincial training grounds.

We are not against the use of the present river course for such activities from time to time, but the current proposal calls for miniature

dams (called shore deflectors), narrowing of the river in places, detouring water, grading the shores, installation of washrooms, parking areas, and camping grounds.

We have all enjoyed the great natural beauty of this area along Horseshoe Lake Road. Many of us have enjoyed watching the kayak races and tricky canoeing. We were pleased when Council turned down the recent proposal, for at present this rapids is a great natural tourist attraction. We trust that any future attempts to alter this area will meet with refusal.

Yours truly,

Horseshoe Lake Property Owners' Association,
Don Heaven, President.

FOR OUT OF THIS WORLD RESULTS

Lake Kashagawigamog to face mid-winter water level drop of two feet

Residents and cottagers on Lake Kashagawigamog will face the added perils of dry wells and pressure systems this winter if the Trent-Severn Waterway goes ahead with plans announced two weeks ago to lower the lake still another two feet next winter.

The announcement came in a letter, reprinted below from Trent-Severn to the North Kashagawigamog Lake Association (sic).

PAVE

FROM P. 3

Mr. Parisotto's report went on to say that the partial paving of the parking areas adjacent to the Municipal Building and the Community Centre should be done at the same time for approximately \$15,000. Ground preparation by Minden's own Public Works crew might cost another \$3,000, bringing the total cost of \$53,279 less a Ministry of Transportation and Communications subsidy of \$34,631 leaving a net cost to the taxpayers of \$18,648. Mr. Parisotto stated that the estimates are high for today's prices, but should be comparable to 1978 costs. He said barring any unforeseen emergency, there did not appear to be any reason why this entire project cannot be totally completed in 1978. He pointed out that no major capital road work has been initiated in the Village Area for over 10 years.

WILLOWDALE, Ontario
M2J 2J2

Dear Mr. Thomson:

Re: Late Winter Lowering of Kashagawigamog Lake

In recent years there have been several large freshet runoffs, which have caused considerable difficulty for our crews in handling the water that must be dumped out of Kashagawigamog Lake on top of lakes downstream of it which have nearly filled already.

to help alleviate this problem and give them more time for other critical areas when the freshet is underway, we plan to lower Kashagawigamog Lake on to two feet late this coming winter. This would be done probably in the early part of March if our snow surveys indicated that a heavy flow were likely. If there were a light snow pack, however, none of the normal winter stoplogs

"One learns manners from those who have none."

Hall's Lake News

Doreen Stinson

It seems as though everyone is having a spell of dull and damp weather. A lot of people say their wells are low and certainly the lakes are abnormally low, so if rain will help the situation we should not complain. Today is the day of the big meeting in Haliburton concerning the water levels so no doubt we will get a report soon as to why the lakes are so drastically low.

A lot of people are on the move these days, either going or coming from vacations. No crowds any more - just the odd family enjoying the quietness or older couples travelling through. Nice to have the same people dropping in each Fall, sometimes showing relatives from the Old Country around Ontario, asking where they can see the Hawk Lake Rapids, where they can have a picnic, how far to Huntsville, where do so and so live, how do we get to The Old Mill Road, can we get across to Kennisby by going North? An information booth would do well along this stretch of road!

Welcome to Mr. Tye and his daughter and son-in-law and grandchildren who have taken over the Bock's home here on the lake. The young folk are the son of the Frank Ferris' right across the way from them and they are very familiar with this area. It will be a summer home for a time, but winterized so that they can come up at all seasons and probably eventually live here all year round.

Mr. Jack Stiver and Mrs. Mabel Sawyer have just returned from a lovely motor trip down to Cape May in New Jersey, not too far from Atlantic City. Jack was swimming in the Ocean and they thoroughly enjoyed seeing all the scenery. Since this was a first trip down that way for Mrs. Sawyer she enjoyed the change very much.

Mr. and Mrs. William Gartshore and Miss Marjorie Johnson have just arrived home from a long 2300 mile sight-seeing trip up around the Lakehead and down through the States to Wisconsin and back into Canada via Sarnia. They drove two cars and had with them their four lady visitors from the United Kingdom, stopping here and there to visit places of interest and old friends; thoroughly enjoying a great travelling holiday.

Mrs. Florence Lindsay is spending a short holiday in Toronto visiting her daughters there in the city.

Miss Sherry Mather has returned to her home in London following an interrupted holiday at her grandparents' (Mr. and Mrs. Art Hunt) for surgery in the Lindsay Hospital. Mrs. Hunt is beginning to feel better following her stay in hospital after a nasty fall and treatment.

Mrs. Florence Poirier, Mr. Leonard Stinson and several members from St. Paul's Church in Minden attended a meeting in Peterborough last Wednesday evening.

Mr. and Mrs. K. Denton Taylor of Belleville drove up and spent Saturday with us. They are old friends and neighbours from Burlington days and it was good to have a visit from them. Denton is known to many of the local Hydro men since that is his vocation too.

On Sunday of Thanksgiving week-end, October 9th, the Rev. Stanley B. Hills of the Church of Saint Augustine of Canterbury in Hamilton, will be visiting Priest in Charge for the Parish of Minden, holding services at 9:15 a.m. at St. Peter's in Maple Lake, 11:00 a.m. at St. Paul's in Minden, and at 3:00 p.m. at St. Stephen's here at Boshkung. These will be Holy Communion services and Harvest Festival at the latter two churches. St. Peter's held their Harvest Thanksgiving this Sunday. Rev. Hills has a cottage here on the lake and he and his wife and family spent most of their summer among us, although Rev. Hills drove back to take his Sunday services during the month of August. We are pleased that he has offered his services for Thanksgiving and trust there will be good congregations at each church for this very special Festival of the Church Year.

If you are doing any serious reading this fall and winter, put this book on your list and be sure to ask for it at your favourite library or book store... 'Bilingual Today, French Tomorrow.' It was written by Lieutenant Commander C.A.F. (Retired) J.V. Andrew, whose father gave me the book this summer while up here on vacation. I put it aside until I had time to read and digest it, but gave it to some ex-teachers to read and their reaction was the same as mine - it is enough to scare anyone out of ten years' growth! We hear so many people say glibly 'I don't mind learning French but I don't want it forced down my throat!'

According to this book, I won't have the ten years - by that time we will have been taken over completely! Every per-

CRASHES

FROM P. 5

Investigation by Provincial Constable Bob Pearson. The next morning on County Road 8 in the Dorset area a southbound car driven by Victor Ewstratin, 16, of R.R. 2 Minden went into the west ditch while rounding a curve

and hit a tree stump. Damage totalled \$2,500. Investigation by Provincial Constable Bob Pearson. Then early the next morning a northbound pick-up truck went out of control on Highway 519 near Donald and went

into the west ditch. Driver Cleve H. Shaw, 19, of R.R. 2 Haliburton and passenger Ivy Francis, 19, of R.R. 1 Minden were both taken to hospital in Haliburton with minor injuries. Damages totalled \$2,400.

Investigation by Provincial Constable Roy Telford.

son in English-speaking Canada should be aware of this, of what is going on not too far behind the scenes and unite in an effort to keep what is rightfully ours!

A nice birthday dinner was celebrated on Sunday by friends and relatives for Mrs. Althea Gartshore, and we all send our best wishes to this fine lady of our community!

This Monday morning is the day set aside for Civic Holiday by businesses and people who did not take the August statutory holiday. With the sun out no doubt there will be some picnics, whereas others will use the day to do extra housework or a trip through the country. A day off for people who work steadily is really to be enjoyed, even if it rains!

Enjoy the little poems that Jean Sears puts in her column from time to time - especially the one about 'All the water in the world---' How very true that is. A little lady here

on our lake was feeling hurt because her neighbour called them 'foreigners' and was finding fault with everything they did. I believe she took heart when she read... 'can never hurt you one least bit, unless YOU let it in!!!' Most people have cottages to get away from the strife and prejudices that exist from closed-in city living and it is sad when one moves to an area for a summer's respite only to find the person next door is the same as the one you left behind! One does not need to be of foreign extraction to find this out!

And so into another week. Let us hope with the coloring of the leaves the lovely bright sunshine(?) and the Firemen's Ball next Saturday night that it will be one of the best. Oh yes, and Club 35 is holding its first business meeting of the Fall Season this Wednesday evening at 7:30 at the Club House.

Kinette Korner

by Joan Roman

On September 13th Minden's Kinette Club met for their first get-together of the season. After a busy summer everyone was happy to see one another again and also get acquainted with two additional recruits for the club. Jean Jackson graciously opened her home for the first meeting. The girls thoroughly enjoyed a super pot luck supper (the biggest complaint of the evening being that everyone felt they had ate too much). Our new president, Dianne Booth, then aptly presided over the business portion of the meeting. This year's fund raising campaigns are

geared towards the C.F. pledge. All the planned events for the coming season were discussed thoroughly and it looks like a busy time ahead for the Kinettes this year.

As advertised, the Kinettes and Kinsmen held their Flea Market Saturday, September 17th with the kind support of donations there was everything from a fine array of new and used clothing, knick-knacks, a bake sale table plus furniture and appliances. Unfortunately, the weatherman was not in tune with the Club's ambitions and last Saturday found the Kinettes looking wet and bedraggled, under a constant

drizzle, but still on the job. The weather limited public participation some-what, but even so we managed to raise approximately \$700. Since no one has control over the weather, we found ourselves with many, many saleable items left over. These items will be on display at Highland Plumbing on Main St. (upstairs) on Saturday, September 24th, and Saturday, October 1st from 1:00 p.m. until 4:00 p.m. for anyone interested as the prices are right.

About the Town

with Jeanne Sears

It's that time again-The Mini Card Party Gang will start another season of games on September 29th and they play bridge, euchre and cribbage. Everyone is welcome and don't forget they start at 1:30 sharp.

Congratulations to Mr. and Mrs. Bernard Trumbull who celebrated their 25th wedding anniversary over the weekend.

Hint of the week - If you collect cat-tails for bouquets and want to preserve them, just use hair spray and let them dry.

Sincere sympathy goes to the families and friends of the late Sophia Ball and Phyllis Langman, whose funerals were since last week.

Something of note this summer and fall are the display of flowers at the Post Office, in spite of the dust the beds of flowers have really been grand, we'll be sorry when the frost comes.

All his friends send good wished to Floyd Hall who is a patient at the local hospital.

Winner of the merchandise prize at M.J.'s Factory Outlet last week was Faye Austen of North Bay.

Anyone interested in going to the Women's Institute Fall Bus trip to Scarborough Town Centre and the Science Centre, October 5, leaving at 8 a.m., call Annie Kernohan at 286-1648 and please have your fare in by October 1st.

Another lucky person at Rotary Bingo when James Ralph Hutchinson of Haliburton won the Jackpot of \$250 in 54 numbers called. Congratulations to him.

Don't ignore the panhandler who asks you for a dime for a cup of coffee; follow him and find where he gets it.
Earl Wilson

There was the usual group of interested people at St. Paul's Parish Hall last Thursday night to work on the project of Minden's new Library. They planned a Family Fun Night for Friday, October 14th at the Curling Club from 7 - 9. At this there will be refreshments, bingo, bake sale, ringtoss, sponge throw, fish pond, dart game and white elephants, and house plants. If you have any articles for the last two items, call 286-1674 or 286-2491 for details.

Ain't it fine when things are going
Topsy-turvy and askew
To discover someone showing
Good old-fashioned faith in you?
Ain't it good when life seems dreary
And your hopes about to end,
Just to feel the handclasp cheery
Of a fine old loyal friend?
Gosh! one fellow to another
Means a lot from day to day,
Seems we're living for each other
In a friendly sort of way.
When a smile or cheerful greetin'
Means so much to fellows sore,
Seems we ought to keep repeatin'
Smiles an' praises more an' more.
Edgar A. Guest

The ladies of the L.O.B.A. start their monthly card parties on September 26th at the Orange Hall at 8 o'clock, and welcome everyone.

Color is beginning in our maples now but don't think this will last till Thanksgiving but might be at it's best in a week or ten days. Many buses on the highways heading our way. Watch the traffic. Cheerio until next time.

Sunday school holds Rally Day

by Irene Alexander

Sunday, September 18 was the annual Rally Day service for the Minden United Church Sunday School.

Highlighting the service was the presentation of gifts to four students with perfect attendance: Karen Snell, 9th year; David Hulbig, 2nd year; Kelly Anne Little, 2nd year; and Michelle Walker, 1st year.

Presentations were made by Sunday School superintendent, Mrs. Jean Cox to students with satisfactory attendance (that is absenteeism

of five or less Sundays). The students were as follows: Karen Snell, Sara Walker, Neil Walker all 12 years; Brian Shaw, 11 years; Sally Cox, 9 years; David Brown, 8 years; David Hulbig, 4 years; Donna Toye and Brenda Toye, 3 years; Kelly Anne Little and Michelle Walker, 2 years; Liza Bagshaw, Richard Beers, Don Pratt, David Pratt and Douglas Pratt, all one year.

Three young people graduated from the senior class and will be receiving medals from their teacher, Mrs. Edna Morgan. They were

Charlene McIntosh, Neil Walker and David Brown. An enlightening film on the mission work being done in Kenya was shown. This was very appropriate for Rally Day as the students are very missionary conscious. Each year they set aside considerable money for this work of the church, and this spring packed two twenty-pound bales for overseas missions.

Sunday, September 25th is the beginning of regular classes; with Senior, Intermediate and Junior classes at 10 a.m. Primary and Kin-

ergarten (ages 3-5) classes are held at 11 a.m.

Council okays water speed limit policy

Minden council last week approved enabling legislation which will permit it any recognized lake association to apply for and get the imposition of local waterway speed limits.

And the Municipality will pay the shot. Under 'Policy 29' a waterway speed limit request must be initiated by an established and recognized lake association. With the concurrence of both

the municipality and the province the Municipality will then purchase the necessary signs with the individual association assuming the responsibility for the erection, maintenance and replacement of all the signs.

Flea market raises \$700

An intermittent drizzle was no deterrent to area bargain hunters last Saturday as they

came to Minden's municipal parking lot and the Minden Kinettes' Flea Market. And

there were certainly bargains galore for by the end of the day some \$700 had

been raised for the Kinettes' special project: cystic fibrosis. photo by foote

The wedding will take place on Saturday, September 24th, 1977, at Trinity United Church, Napanee, Ontario. 760-lp

In Memoriam

Are the hardest things to say,
Dearest papa, I loved you,
In a Very Special way.
If I could have one lifetime wish,
One dream that could come

In loving memory of a dear Husband and Dad Garnet who passed away Sept. 23rd, 1975. Though tears in our eyes do not glisten, And our face is not always sad.

There is never a night or morning But we think of the Husband and Dad we had. Not a day do we forget you For we loved you and miss you As it ends the second year. Sadly missed and always remembered by his wife Chub and family. 760-lp

SAWYER - In loving memory of my dear husband Gordon (Pete) who passed away Sept. 17, 1976.

Along the road to yesterday That leads me straight to you Are memories of the happy days Together we once knew And always every evening I seem to have a way Of wandering back to meet you On the road to yesterday. Lovingly remembered, Mabel. 760-lp

Mike Miscio who passed away September 25, 1972. Five years ago today, my dear Husband passed away. As I sit alone and think of the past in my mind you are always there, my love for you will always last. Sadly missed by wife Annie. 760-lp

Miscio - In loving memory of a dear Grandfather who passed away Sept. 25, 1972. Though his smile is gone forever, And his hand we cannot touch, Still we have so many memories, Of the Grandfather we loved so much. His memory is our Keepsake With which we'll never part God has him in his Keeping But we have him in our heart. Remembered by 'The Rouden Grandchildren' 760-lp

Miscio - In loving memory of a dear father who passed away September 25, 1972. September comes with deep regret, A month I can not forget, Within our home, where all seems bright, Death took from me a shining light, But among the tears and heartaches, There's one thing that makes me glad, That as a Daughter, I shared with you Those precious years you had, Things I feel most deeply,

true I'd pray to God with all my heart For yesterday and you. Sadly missed but always remembered by your Loving Daughter Nell. 760-lp

Outdoor writers meet

photo by foote

The Ontario Chapter of the Outdoor Writers of Canada met at Dorset last weekend where the Leslie Frost Centre was the setting for their annual workshop. Seminars spiced with plenty of pro-

fessional discussion, and, of course, fishing, shop talk, marked the weekend's program for the 30 or so outdoor writers attending. On hand for the Friday evening wine and cheese party was

Natural Resources Minister Frank Miller, seen here in deep discussion with two freelance outdoor writers: Renee Ackerman, left, and Mary Mastin, both of Toronto.

Kilcoo Camp reunion

They came from as far away as California, but some 150 former and current camp counselors and instructors were on hand last Saturday for a special Kilcoo Camp reunion. Founded by Charles F. Plewman in 1932, the camp has served the na-

tions youth for 45 years, the past 21 under the direction of John Latimer. Originally expected attend, Mr. Plewman was ill and unable to make it out. However, this cross-section above did make it out and are seen here reminiscing over an old

photo album. Left to right: 1954-58 counselor and instructor John Kennedy, 39, of Toronto; current counselor and instructor Ian Campbell, 20, of Oakville; 1965-66 counselor and instructor John Harrison, 30, of Laguna Beach; and John Latimer.

LAND FOR SALE

Lot number 18 in the 8th Concession of the Township of Monmouth, Haliburton County. Lot contains 100 acres more or less. Best cash offer received by Oct. 15, 1977 will be accepted. Write George H. Bertram, 2311 'N' Ave., New Castle, Ind. 47362 U.S.A. 760-4c

The recent closing of Robert and Bobby Freeman's South Lake Lodge marked the end of an era and the demise of a popular and well-known lodge and landmark. Last week this procession down the Minden Road to Highway 35 left no doubt that the lodge in days were really over. Led by an O.P.P. cruiser and followed by a pickup truck with its lights flashing, one of numerous South Lake Lodge cottages moved off to new and different scenes.

1000 LAKES BOWLERS ASSOCIATION STARTS 3RD SEASON

The 1977-78 1000 Lakes Bowlers Association executive, would like at this time to welcome all to the bowlers in the Bancroft, Carnarvon and Fenelon Falls area, to the third season of the Association. As you all know by now, your Association finished in second place last year among the 24 Ontario Associations. This could not have happened without your participation and the hard work put forth by your executive. This season it is hoped that the 1000 Lakes will go over the 1,200 mark in memberships and with just a little harder effort by all members of your Association, be number one in the Province of Ontario this year.

The 1977-78 1000 Lakes executive is as follows: for the information for all the bowlers. President: Wes Stata, Carnarvon; 1st Vice: Don Mackie, Fenelon Falls, 2nd Vice: Jack Williams, Bancroft; Treasurer, Ross Wilson, Fenelon Falls, Secretary, Tournament Director: Ron Robinson, Carnarvon (Assistants - Shirley Wilson, Fenelon and Mike Croghan, Bancroft) Ev Stata, Carnarvon; Membership and Awards Chairman, Bill Phillips, Bancroft; (his assistants, Cliff Burke, Carnarvon and Ross Wilson,

Fenelon Falls) Records Chairman: Cliff Burke; (his assistants, Shirley Wilson and Roy Sutherland, Bancroft), Publicity Chairman, Joan Deyell; (her assistants, Cliff Burke and Mrs. Cec Burke, Bancroft) Lottery: Shirley Wilson, Fenelon Falls (her assistants, Ev Stata and Bill Phillips). Certification Agents, Ross Wilson and Wes Stata.

10 Leagues at Carnarvon Lanes

Ten leagues will start the season at Carnarvon Lanes this season, eight mixed, one men and one ladies. However, there could be as many as twelve before the season ends. Once again this year the Ontario Bowlers' Congress member will have the privilege of entering the many tournaments on the OBC calendar, many of which are designed specifically for the handicap bowler. Some of these are the Carling O'Keefe Classic 210 and Under,

the High Low Doubles, the President, Secretary and Treasurers, the Hault Hellewell Mail-

O-Graphic, Senior Citizens and the Pepsi Cola High School. There is also the 2nd annual Mr. and Mrs. 1000 Lakes and the Carnarvon Play-Offs at the end of the season sponsored by the Proprietor of Carnarvon Lanes, Gord Everall. For the top bowlers in the Association (but this does not say the handicap bowler is not eligible) there is the Carling O'Keefe Open, which by the way, has been reduced from the customary thirty games, down to twenty. The top ten men and nine ladies in the Association gain the right to compete in Hamilton against the very best in Ontario and also win the right to compete in the Ontario Winter Games.

The OBC member also wins crests and attractive glasses for their achievements in league play as well. So, if you haven't purchased your OBC membership card from your league secretary yet, do so right away and get in on all the fun this winter for the nominal amount of \$2.00.

Fall Champions

The Minden Curling Club held their Fall Golf tournament this past weekend at Beaverbrook Golf Club, and the happy couple above were the winners. For the gentlemen, J.O. (Jack) Jackson, far left and for the ladies, Ina Brintnell, far

right. In the centre are tournament organizers, Don and Elaine Blakey who did a great job. After the tournament the golfers all adjourned to the Curling Rink and enjoyed a fine barbecue dinner and dance.

CBC and CFL reach new TV agreement

Cup classic. The 1977 coverage winds up the previous three-year contract. Commenting on the announcement, Don MacPherson, Vice-President and General Manager of the CBC's English Services Division, said that the spirit of co-operation through negotiations with the CFL was pleasing. 'I am confident that the agreement will continue to be mutually satisfactory to both parties as well to football fans across the country,' he said. Jake Gaudaur, Commissioner of the CFL, said 'CBC support of Canadian football through its television coverage has been a contributing factor to the high degree of acceptance of league play across the country.'

Mr. MacPherson said that the CTV network, which has long been associated with the CBC in the telecasting of CFL games, will continue to share coverage of the schedule during the term of the new agreement.

In a joint statement, the Canadian Broadcasting Corporation and the Canadian Foot-

ball League have announced that a new three-year agreement on television rights would extend through the 1980 football season. The announcement said the television rights would include regular season play, east and west playoffs and the Grey

Curlers hold fall golf tournament

Winners of these handsome Low Net trophies are Tom Hurtt and Ina Brintnell.

Angela O'Neil gets a hug from tournament organizer Don Blakey after winning runner-up spot in low net category. Men's low net went to Wilf Jarvis.

Closest to the hole winners on the par 3, eighth hole at Beaverbrook, went to this fine looking couple, Lorne Ceburn and Patti Prentice.

Hitting the longest drives of the tournament on the third hole, Jean Jackson and the fourth, Cliff Burke.

**"It's 2 A.M. and I feel rotten.
Who has time
to read medicine labels?"**

Sorry, there is no excuse for not reading the medicine label. The label tells you what it's for, how much to take and how often to take it. It's important information. Before you take any medicine, read the label. Medicines can't help you if you don't take them right.

Camp record

Karl Graham of Tottenham was a happy man on Labour Day weekend. He caught this beautiful 14 pound, 35 inch lake trout, not far from the Northern Eagle Tent and Trailer Resort on Lake Kashagawigamog, with a Dardevle Lure

with pork rind on the hooks. This is the second 'Northern Eagle' fisherman that has landed a big one from Lake Kashagawigamog, the previous record being a 10 pound pickerell in July.

The two most honest golfers in the tournament were Bill O'Bee and Alice Cox. Their scores are a strict secret.

Eakins decries Customs arrogance

John Eakins, M.P.P. (Victoria - Haliburton), the Liberal Party Critic of the Ministry of Industry and Tourism, said last week he was disturbed upon hearing of the two aldermen who, on returning to Niagara Falls, were reportedly treat-

ed in a very arrogant fashion by Canadian customs officials there.

'I do not feel that this helps our efforts to bring tourists to Ontario at a time when the tourism industry has had its share of problems. Rather we should be making our

visitors' first impression of Ontario a very warm and welcome one.

'This is one area where the provincial government should be working in conjunction with the federal government to ensure that a very favourable welcome is

extended to our tourists from the first moment they enter Canada until their holiday here has ended.

'Good public relations is one area where everyone can take part and leadership from the Provincial Ministry of Industry & Tourism in a case such as this is certainly in order.'

THE STRETCH FABRIC BANDAGE

Elastoplast

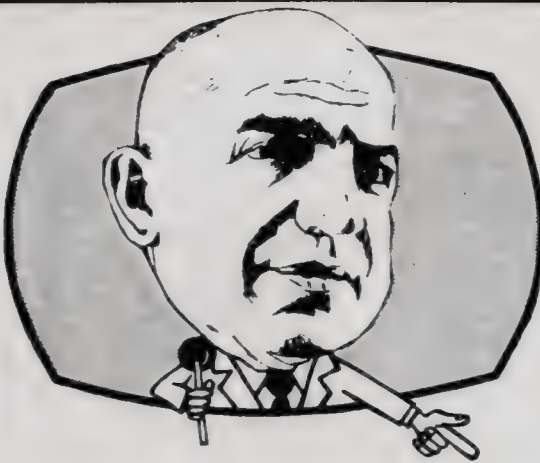

Fabric, not plastic. This porous Elastoplast fabric stretches with every body movement—allows air to penetrate to the wound to promote faster, natural healing. Extra cushioned protection with a thick medicated pad. And you can trust Elastoplast to stick.

MEDICAL CENTRE

Combined medical centre
and living quarters

Ideal set-up combining luxurious dwelling and a professional suite with the necessary examining, recording and medical clinic rooms and equipment to accommodate up to 3 doctors. Ample space for parking and situated near the hospital. Living quarters include four bedrooms, two baths, study, den, separate dining room, living room and 2 familyrooms all nicely decorated and broadloomed throughout. Many expensive extras. Three-car garage. An adjoining 6-acre lot including an older 9-room house and garage may also be included. Total price \$139,500.

Joe Shapiera,

ROBERT CASE REALTY LTD. 286-2882

Registered Home Ownership Savings Plan

Finance Minister Donald S. Macdonald announced today that there will be a one-year delay in the proposed budget change requiring contributions to a Registered Home Ownership Savings Plan to be made within the year in which they are claimed as a deduction.

Under existing terms of the Income Tax Act, deductible contributions for a taxation year may be made in the year or within 60 days after the year-end. However, the implementing legislation required to give effect to the March 31, budget proposal has not yet been passed and the Minister said he has been

concerned that a number of taxpayers unaware of the proposed change would miss the new deadline for contributions. He therefore announced that contributions made within 60 days after December 31, 1977 will be allowed as a deduction for the 1977 taxation year within the prescribed limits.

Burning Rectal Itch Relieved In Minutes

Exclusive Healing Substance
Relieves Pain As It
Shrinks Hemorrhoids.

If you want satisfactory relief from 'itching piles'—here's good news. A renowned research laboratory has found a unique healing substance that promptly relieves the burning itch and pain—actually shrinks hemorrhoids. This substance has been shown to produce a most effective rate of healing.

In one case after another, very striking improvement was reported and verified. And most important... this improvement was maintained over a period of months.

All this was accomplished by a healing substance (Bio-Dyne)—which quickly helps heal injured cells and stimulate growth of new tissue. Now Bio-Dyne is offered in ointment and suppository form called Preparation H. Ask for it at all drug stores—satisfaction or money refunded.

Cree Goose Camps ready for hunters

There are some openings for Ontario waterfowl hunters at goose camps in the Hudson and James Bay area for the annual goose hunting season which lasts a month from September 15.

Six Cree Indian goose camps, at the northern edge of the Province about 900 miles north of Metro Toronto, annually attract sportsmen who travel hundreds or even thousands of miles by car, airplane and boat to get there.

The goose camps opened during the 1960's under a federal - provincial agreement as a potential source of income for Indian bands along the Hudson - James Bay

coast. The ultimate goal of the program is for fully independent operation of the camps after a suitable period of business training and guidance from Ministry staff.

The camps are situated at Fort Severn, Winisk, Attawapiskat, Kapiskau, Kashechewan, and Tidewater. Experienced guides at each camp lead the waterfowlers to Canada and snow geese as well as to flocks of ducks--mallards, blacks, teal, wid-geon and pintail.

Al Stewart, the Ministry's district manager at Moosonee reports the geese are beginning to fly in. He says, "They should be there in

sufficient numbers to satisfy sportsmen when the season opens."

Last year, about 700 sportsmen took advantage of the series of three-day hunts held between mid-September and early October. This year's goose hunting season takes place between September 15 and October 15 in the far north.

Travel arrangements to the camps must be made through agents. The departure point at Timmins is served by Air Canada, Austin Airways and Norontair.

Some changes announced in Migratory Bird regulations

With the hunting season fast approaching a few changes to the 1977 Migratory Bird Regulations which apply to the Algonquin Region should be noted. The latter includes the districts of Parry Sound, Bracebridge, Minden, Bancroft, Algonquin Park and Pembroke.

This year the season open Saturday September 24 across the entire Region & closes on December 15, 1977. The daily bag and possession limits for ducks remain at five and ten. This year, these limits also include red-breasted and American mergansers. There are to be no more than two canvas backs and two red heads to be taken daily and four of each possessed. On or after October 18 two additional scaups may be possessed.

The bag and possession limits for geese are five and ten across the region except there is no open season on brant anywhere this year.

The reason for no open season on brant this year was the big freeze in January 1977 in

the eastern United States which froze the estuaries of the coast of New Jersey and the upper part of Chesapeake Bay. The brant, which winters in these locations, was reduced from 115,000 to about 35,000 in number.

For rails, the daily bag and possession limits are five and ten; and for wilson snipe ten and twenty; and for woodcock eight and sixteen. A total of ten coots and gallinules can be taken daily and twenty possessed.

A person who has more birds in his possession than allowed by law will often claim to be holding those birds for another person. Because of this practice, a new regulation has been introduced that no person shall have in his possession the carcass of a migratory bird belonging to another person unless the carcass has a tag attached which gives the following information:

(1) The number of the migratory game bird hunting permit under which the bird was shot.

(2) The signature of the holder of this permit.

(3) The date on which the bird was shot.

(4) The address and name of the person holding the carcass.

There is no official tag, but a durable one is recommended.

The period during which bait may not be deposited before a open season (without permission) has been increased to fourteen days from the previous seven.

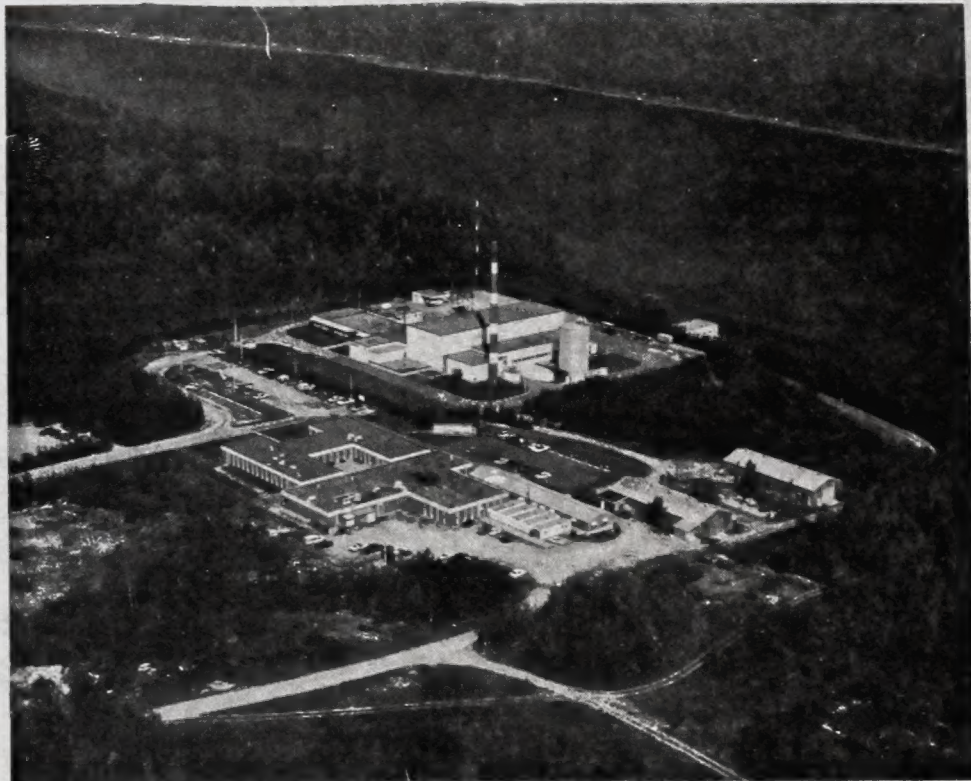

Hunters are advised to check with local district offices of the Ministry of Natural Resources for any additional restrictions.

Perform a death-defying act.

Give Heart Fund.

Give Heart Fund

Nuclear power's 15th anniversary

Canada's first nuclear power plant is marking its 15th anniversary in service Oct. 1. Known as the Nuclear Power Demonstration Station (NPD), it has produced 1,639,000 megawatt hours (a megawatt hour is 1,000 kilowatt hours) from then up to the end of last year. In 1976, 177,000 megawatt hours were fed into the Ontario Hydro system. NPD, of which the nuclear part is owned by Atomic Energy of Canada and the conventional part by Ontario Hydro -- and all operated by Hydro -- last year achieved its highest ever net capacity factor: 92.4 per cent. The station also has an outstanding safety record, winning two safety awards and never having a major accident of any kind. It's located near Rolphton about 40 miles up the Ottawa River from Pembroke.

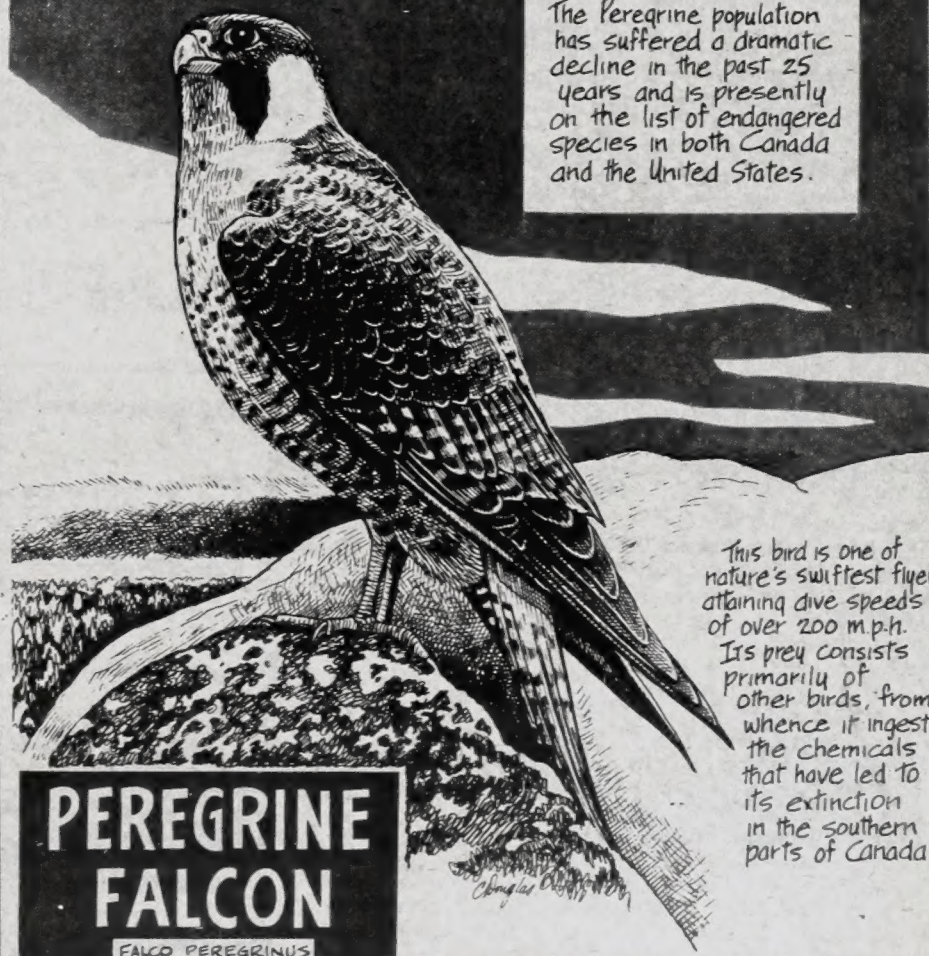

The gyroscope was invented by Leon Foucault in 1852.

Enjoy them, don't destroy them!

The Peregrine Falcon, once numerous throughout North America could possibly be extinct in the future due to the effects of chemical pesticides such as DDT.

The Peregrine population has suffered a dramatic decline in the past 25 years and is presently on the list of endangered species in both Canada and the United States.

This bird is one of nature's swiftest fliers attaining dive speeds of over 200 m.p.h. Its prey consists primarily of other birds, from whence it ingests the chemicals that have led to its extinction in the southern parts of Canada.
